Professional Summary

Results-driven Software Engineer with 4 years of experience building scalable backend systems and APIs. Proficient in Python, Django, and REST API development. Passionate about cloud technologies and machine learning. Strong communicator with experience leading small development teams.

Technical Skills

- **Languages:** Python, JavaScript, SQL, Bash
- **Frameworks:** Django, Flask, React.js, FastAPI
- **Cloud:** AWS (EC2, S3, Lambda), basic GCP
- **Tools:** Git, Docker, PostgreSQL, Redis, Jira, Postman
- **ML Libraries:** Pandas, NumPy, Scikit-learn, Matplotlib
- **Soft Skills:** Team Leadership, Agile, Communication, Problem Solving

Work Experience

Software Engineer — TechCorp Solutions, Bangalore
July 2022 – Present

- Designed and developed REST APIs using Django and FastAPI serving 50K+ daily users.
- Reduced API response time by 40% through query optimization and Redis caching.
- Led a team of 3 junior developers, conducted code reviews and sprint planning.
- Deployed microservices on AWS EC2 and managed S3 storage buckets.
- Integrated Scikit-learn ML models into production pipelines for fraud detection.

Junior Python Developer — StartupXYZ, Hyderabad
June 2020 – June 2022

- Built data pipeline scripts in Python to automate ETL processes.
- Developed Flask-based internal dashboard for real-time reporting.
- Wrote unit tests and maintained 85%+ code coverage.

Education

B.Tech in Computer Science — VIT University, Vellore (2020) | GPA: 8.4/10

Projects

- **E-Commerce Analytics Dashboard**: Built a real-time dashboard using Django + Chart.js with PostgreSQL backend. Deployed on AWS EC2.
- **Sentiment Analysis API**: Created a REST API wrapping a fine-tuned BERT model for product review sentiment analysis. Used FastAPI + Docker.

Certifications

- AWS Certified Developer – Associate (2023)
- Google Data Analytics Certificate (2022)
